Company Description

Alpha Packaging is a leading manufacturer of high-density polyethylene (HDPE) and polyethylene terephthalate (PET) and polypropylene (PP) bottles and jars for the nutritional supplement, pharmaceutical, personal care, animal health, consumer chemical, and niche food and beverage industries. Sizes range from 1 ounce to 2 gallons, and include styles ideal for tablets and capsules; powders and granules; and liquids and lotions. We continue to work on sustainable packaging solutions, including bottles and jars with FDA-approved post-consumer resin (PCR). Alpha has six manufacturing plants and one decorating facility in strategic locations across the United States, as well as a manufacturing plant in The Netherlands. Alpha offers in-house tool-making capabilities, and can build everything from unit cavity molds to complete high cavity production tooling.

Key Personnel

Dan Creston, Chief Operating Officer
Brian McCarthy, Senior Vice President of Sales and Business Development
Jack Baily, Executive Vice President of Sales
Paul Bonastia, Vice President of Sales
Marny Bielefeldt, Director of Marketing

Technologies, Patents, New Products

Alpha has added about 180 new stock items to its web site, including a wide variety of containers for condiments and sauces. Samples of all stock items are available at www.alphap.com.

For nutritional supplements in dry and powdered form, Alpha now offers a full line of Indented Label PET Packers in sizes ranging from 1500cc to 6250cc, including a new one-gallon (3785cc) size. The 1500cc, 2000cc, 2500cc, 3000cc and 3785cc bottles all have 110mm necks, and the 5000cc and 6250cc bottles each feature 120mm necks. These are ideal for powders and dry ingredients, such as nutritional supplements, drink mixes and dry chemicals.

Major Markets

- Nutritional Supplements
- Pharmaceutical
- Personal Care
- Niche Food & Beverage
- Consumer Chemicals
