Global Initiatives

ZMC has gone to extraordinary lengths to achieve the highest standards of sustainability as verified through ZMC's numerous facility certifications.

Our mission is to build on our history of product excellence and innovation to provide the highest-quality ingredients to our world-wide customers in medicine, research and dietary supplement production. We will accomplish this by exceeding the expectations of our customers while conserving resources and preserving the quality of the environment. Through our culture, our drive and the expertise of each individual employee, we are uniquely positioned to provide best-in-class ingredients to a global customer base.

As a concerned corporate citizen we are committed to the care and improvement of human and animal life. ZMC has sustained a strategic philanthropic program to improve the quality of life in the global communities we serve. Our goal is to foster a culture of discovery in all of our activities and to continue to strengthen our relationships with universities, hospitals, agencies and our community.

Reputation, commitment, innovation and sustainability are the cornerstones of our success. You're in good company with the ZMC family today and well into the future.
